

Kew Dental Care

Welcome to our latest newsletter

Spring is in the air at Kew Dental Care! As the days grow longer and the blossoms start to bloom, there's a real sense of renewal in the air—and it's not just outside! At Kew Dental Care, we're embracing the season of growth with some exciting updates. From the latest dental technology making its way into our practice to the arrival of a few new friendly faces on our team, there's lots to smile about this spring. We're looking forward to sharing it all with you and continuing to provide the highest level of care in a fresh, welcoming environment.

OPENING HOURS AND TEAM ROSTER

Our New Team

After 18 wonderful years at Kew Dental Care, we are sad to announce that Dr. Karim Verjee will be leaving the practice this spring. Karim has made the difficult decision to reduce his clinical hours so that he can spend more time with his parents in Kenya and enjoy more precious time with his family. We are incredibly grateful for his dedication over the years and wish him all the best for the future.

We are delighted to welcome Dr Kaezar Bamrah, who will be joining us this spring to continue Karim's excellent work. In addition, we are thrilled to announce that Dr Yusuf Alshafi, who specialises in oral surgery and implants, will also be joining the Kew Dental Care team. He will initially be available once a month for our more complex cases.

Last summer we said goodbye to our wonderful full-time nurse Anna Cazzaniga, who relocated to South London. In her place, we have recruited two superb nurses, Sahar Maghouli and Anna Kierstyn. Both have already shown outstanding clinical excellence, compassion, and integrity in their work and we are thrilled to have them as part of our team.

Dr. Kaezar Bamrah

BDS (Bristol), MSc (Implants)

Dr. Kaezar qualified from the University of Bristol and subsequently went back to complete his Master's in Dental Implantology. He brings with him a wealth of experience in implant dentistry, cosmetic treatments, and advanced oral surgery, including wisdom tooth extractions and bone grafting.

He is particularly known for his gentle and empathetic manner, which has made him especially popular with anxious and dental-phobic patients. Dr. Kaezar is passionate about creating a calm, tailored experience for each individual and is proud to have built a loyal patient base through his warm approach and high-quality care.

Kaezar is local to the area and very much rooted in the Kew community. His two young children attend nursery and school right here in Kew Village. When he's not in the practice, Kaezar enjoys cooking up new recipes, exploring global cuisines, and going to live music events.

Dr Kaezar Bamrah

Dr. Yusuf Alshafi

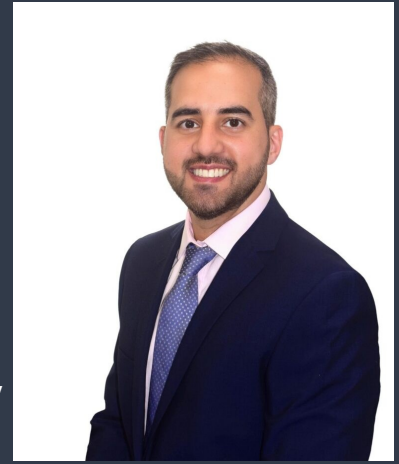

BDS (Lond), MSc (Implants), MFDS, RCSEd

We're thrilled that Dr Yusuf Alshafi will be joining us once a month to offer his expertise in oral surgery and dental implants.

Dr Yusuf Alshafi is a highly experienced implant dentist with a passion for advanced implantology. He graduated from Guy's, King's and St Thomas' Dental Institute and went on to complete an MSc in Implants. His career has included a position as Senior House Officer at Guy's Hospital in Oral Surgery and Restorative Dentistry. He has also obtained membership of the Faculty of Dental Surgeons at the Royal College of Surgeons, Edinburgh.

Over the years, Dr Alshafi has completed numerous postgraduate courses across the UK, US, and Europe, giving him experience with the most advanced dental implant techniques. He has placed over 1,000 dental implants and has mentored a number of dentists starting out in the field of implant dentistry. Yusuf has regularly lectured at the Association of Dental Implantology (ADI) and thoroughly enjoys teaching a subject he is passionate about. In addition, Dr Alshafi offers complex oral surgery procedures, such as impacted wisdom tooth removal and cosmetic gum plastic surgery.

We're confident his skills and dedication will be a great asset to our practice.

Dr Yusuf Alshafi

A good bye message from Karim

To all my patients, colleagues and friends at Kew Dental Care,

It's not easy to say goodbye after so many years, but the time has come for me to move on from the practice. I've made the decision to reduce my clinical hours in order to spend more time with my family — both here in the UK and with my parents in Kenya.

I feel incredibly grateful for the trust you've placed in me over the years. Being part of your lives, hearing your stories, and looking after your smiles has been one of the most rewarding parts of my career. I'll truly miss the day-to-day interactions, the warm chats, and the sense of connection that comes from being part of such a close-knit and caring community.

While I'm moving on, I'm leaving you in excellent hands. I know the team will continue to provide the same thoughtful, ethical care that we've always strived for. Thank you for making my time at Kew Dental Care so special — it's been an honor and a joy. I leave with many fond memories.

With heartfelt thanks and very best wishes,

Dr Karim Verjee

Same day dentistry just got better, with our all new CEREC Primescan!

Many of you will already be familiar with our same-day restorations, where custom crowns and onlays are created in just one appointment. We're excited to announce that we've now invested in the latest Primescan digital scanner.

This upgrade allows us to provide more accurate restorations with the latest materials. We can now streamline our digital workflow even further, offering even greater speed, comfort and precision. At Kew Dental Care we are always looking for ways to save our patients valuable time without compromising quality.

If you'd like to learn more about how our same-day dentistry can benefit you, please don't hesitate to get in touch—we are always happy to help.
